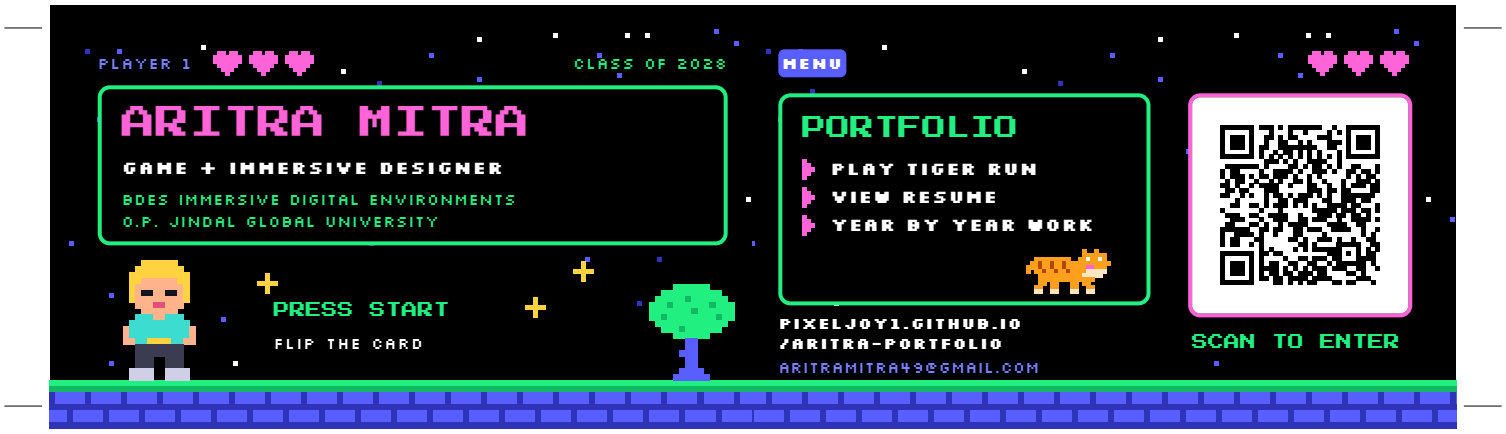
Aritra Mitra | visiting card test print

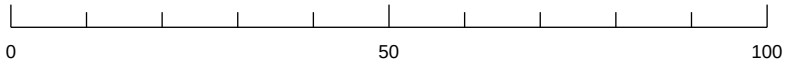
Print this page at 100% / Actual size, LANDSCAPE (turn OFF "Fit to page"). Card size 90 x 50 mm.

FRONT FOLD **BACK**



FOLD

SCALE CHECK: this bar must measure exactly 100 mm with a ruler



1. Print on plain A4 paper at 100% (Actual size). Landscape. Colour.
2. Measure the scale bar above. If it is not 100 mm, fix the print scale and reprint.
3. Cut along the outside crop marks. Do NOT cut the fold line in the middle.
4. Fold along the centre line so the printed sides face OUTWARD (front one side, back on the other). Glue the two blank insides together with a glue stick.
5. Trim the edge flush. Scan the QR with an iPhone and an Android phone from arm's length.

Test only. For the real print order, send Aritra_IGDC_Card_PRINT_v3.pdf (96 x 56 mm with 3 mm bleed) to the print shop.
