PRINT SPECIFICATION

Aritra Mitra | visiting card (2 pages: front, back)

File: Aritra_IGDC_Card_PRINT_CMYK_v3.pdf

FINISHED SIZE	90 x 50 mm, landscape. Page 1 = front, page 2 = back.
FILE SIZE / BLEED	96 x 56 mm including 3 mm bleed on all sides. TrimBox and BleedBox are set in the PDF.
SAFE AREA	All text and the QR sit at least 3 mm inside the trim.
COLOUR	4/4 CMYK. Every object is DeviceCMYK. No RGB, no spot colours, no transparency, no images.
BLACK	Page and panel ground: cool rich black C50 M40 Y40 K100 (230% total ink). QR code: K100 only (single plate).
TOTAL INK	Maximum 230% anywhere in the file.
TEXT	All type is converted to outlines. No fonts are embedded or needed.
SMALLEST TYPE	About 6 pt pixel type, reversed (knocked out) from the black ground. Stroke width about 0.26 mm.
COLOUR REFERENCE	Values chosen for coated stock, FOGRA39 (ISO Coated v2). No ICC profile is embedded, so values print as specified.
SUGGESTED STOCK	350 gsm silk or matte coated board. Matte or soft-touch lamination. Avoid gloss over the QR.
PROOFING	Please send a digital/contract proof. We will scan the QR from it before the run is approved.

COLOUR BUILDS

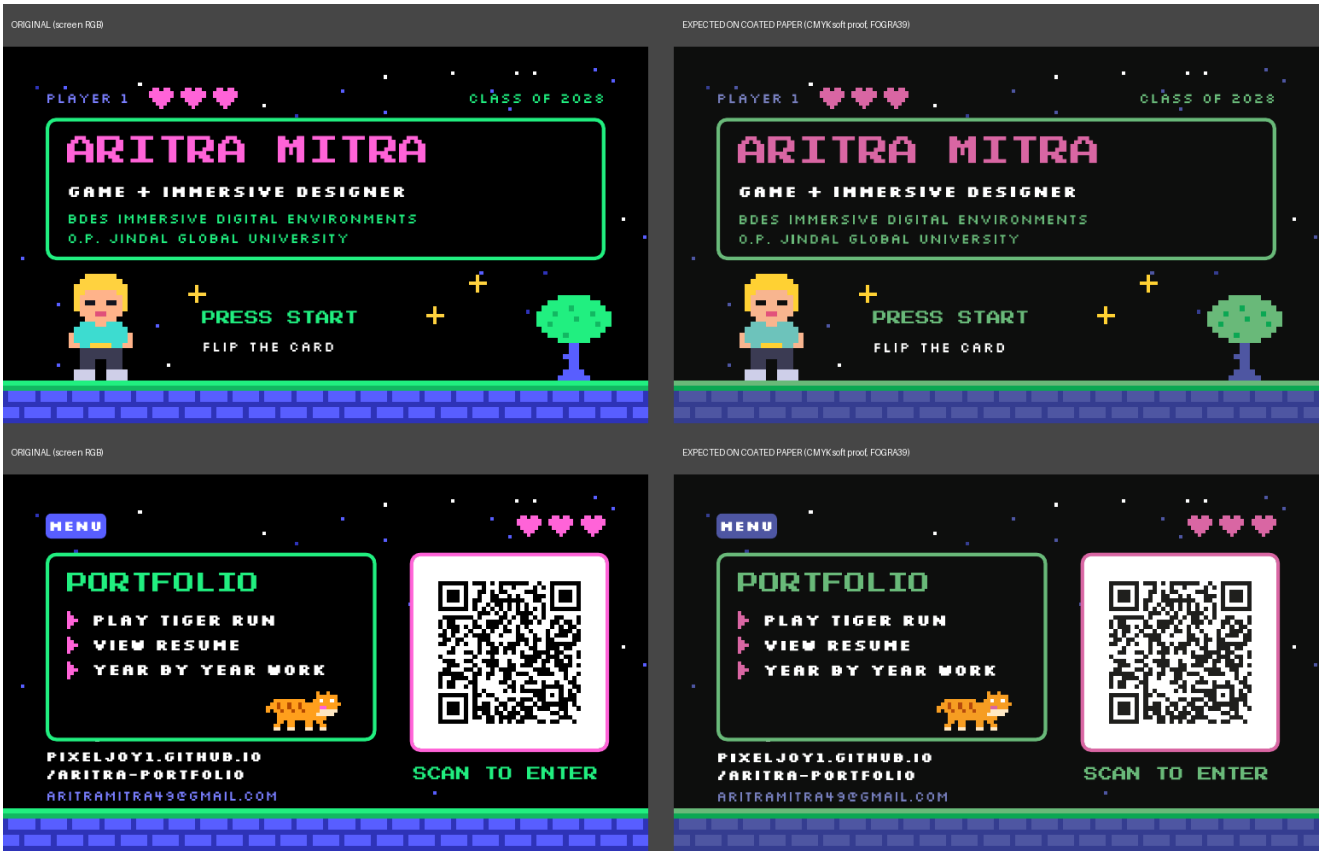

Ink builds used in the file (C M Y K, percent)

NAME / USE	SCREEN	ON PAPER	C	M	Y	K
Rich black Page and panel ground			50	40	40	100
Pure black QR code only			0	0	0	100
Paper white Reversed text, QR tile (no ink)			0	0	0	0
Mint (neon green) Frames, headings			62	0	66	0
Mint dark Grass line, shading			80	0	86	0
Pink (neon) Name, hearts, cursor, QR frame			12	72	0	0
Indigo Bricks, MENU pill, stars			80	70	0	0
Indigo light Small text on black			60	50	0	0
Indigo dark Brick mortar			93	85	0	0
Yellow Hair, stars			0	18	85	0
Skin Hero			0	37	45	0
Mouth Hero			0	80	25	5
Teal Hero shirt			58	0	32	0
Trousers Hero			72	63	29	54
Shoes Hero			22	18	0	0
Tiger orange Tiger			0	45	91	0
Tiger stripes Tiger			0	75	99	30
Cream Tiger			0	10	28	0

Mint, pink and indigo are neon screen colours and lie outside the CMYK gamut. The 'On paper' swatches show how the chosen CMYK builds are expected to look on coated stock: calmer than on screen, with the same hue and contrast. If a brighter result is wanted, ask about fluorescent or neon spot inks for mint and pink as an upgrade.

EXPECTED RESULT

Screen artwork vs. CMYK soft proof (FOGRA39 coated)

The right-hand images are a simulation made with the FOGRA39 profile. Real colour depends on the press, ink and stock, so a contract proof is still recommended. The QR code stays pure black on paper white and scans in both versions.
